

SUPER YACHT SOLUTIONS

Infinite Security Solutions (ISS) has extensive experience working in the yachting industry in all corners of the world and recognises that the demands of Owners, Managers and Charterers are very different from those found in other Maritime industries.

ISS provides discreet, non-intrusive, balanced solutions to safeguard the vessel and its passengers.

ISS Super Yacht Services includes advising on Security Solutions during the Concept and Design phase as well as throughout the building process of your Yacht. With extensive experience in this area ISS knows that the best security solutions should be incorporated at the earliest possible time ... alleviating the burden of exorbitant costs as well as frequently encountered frustrations when adding security features to your Yacht after its completion. Any security measures incorporated at the time of conception can be integrated into the overall design allowing for effectiveness while remaining inconspicuous to the untrained eye.

ISS also offers advice on Security Equipment, Procurement and Crew Training (physical or technical).

ISS is a specialist in the International Ship & Port Security Code (ISPS) and although this Code is not applied to vessels less than 500 gross tonnage it can be an invaluable tool to aid Yachts in maintaining security standards of the highest level. ISS supplies Ship Security Assessments and Plans and can carry out complete Vessel Audits.

Part of ISS Super Yacht Services is Client and Vessel Protection as well as Client and/or Charter Party Close Protection (Overt or Covert).

Pre-reconnaissance of future Ports of Call or Locations is also a task ISS handles by assessing potential risk at each Port and advises the security measure applicable for the specific region/s being transited and/or visited. In the event of a towing or salvage of a yacht, ISS is equally equipped with the expertise and manpower to provide protection in high risk regions.

ISS ALSO OFFERS SUPER YACHTS A 24/7 RESPONSE FACILITY FOR SAFETY AND SECURITY EMERGENCIES.
